

# RECYCLING PROGRAM

# LASER CYCLE

**Do you have old or outdated technology equipment around your office? Are you wanting to do the right thing and dispose of it in an environmentally friendly manner?**

Now you can! LaserCycle can now recycle or de-manufacture your old or outdated equipment. Every item is broken down and shipped to an EPA licensed recycling center where the material is further separated, crushed and/or shredded. It is then bulk transported to industries who reclaim the raw materials. With a zero landfill policy, LaserCycle's recycling partner assures that nothing you send for disposal ends up in a harmful landfill!!

## Rate Schedule

Drop Off your old equipment at 8208 Nieman Road, Lenexa, KS, Monday through Friday, 8am to 5 pm.

For pick up, there is a \$80 per trip charge in the KC Metro area for less than 10 items.

**The following disposable assets are accepted and prices are as follows:**
